DETAILED ACTION

Specification

The abstract of the disclosure is objected to because it suffers from nonidiomatic English. Furthermore, making reference to the claims (i.e. page 1, line 10) should be avoided. The sectional headings, i.e. "Brief Description of the Drawings", are missing. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claims, like the specification, could benefit from editorial polishing.

In claims 1 and 22, the bypass and pressure pipes are not located in area 42; the claims should be carefully reviewed for like problems. The terms "preferentially" and "and/or" are vague.

A number of claims improperly use "e.g.", "etc.", "or the like", "such as".

A number of claims suffer from lack of antecedent basis because of the change in their dependency. For example, there is no antecedent basis for "the operating solenoid" and "cylindrical sleeve" in claim 13 and "the thermally expandable element" in claim 19. The claims should be carefully reviewed for like problems.

Allowable Subject Matter

Claims 1-22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
